UX PORTFOLIO

Hi, I am

VASHISH RAMOUTAR

User Experience Designer

ABOUT ME

ABOUT ME

I use a very stylized and structured approach to solving users' problems and have a 'can do' attitude.

Something different I can bring to your next project is the formalized soft and hard engineering skills inculcated through my four year degree. Inherently, these skills help me strategize and prioritize those aspects which can turn your ideas and goals from possibility to actuality.

I have recently commenced my UX/UI journey and am located in Toronto, ON. My ideal client varies based on needs and goals.

Hello, I am Vashish Ramoutar, a freelance UX/UI designer. I specialize in idea consolidation and foundational design and enjoy solving user problems that are hard to initiate and develop. My skills include Figma, Miro, Adobe XD and using online development tools.

MY SKILLS

MY UX SKILLS ARE ...

USER RESEARCH

The structured approach that I use to conduct research allows me to have a holistic overview of the target user and best define and outline how to target and connect with them.

USER EMPATHY

My open mindedness as well as strong interpersonal skills allow me to connect with my client and allows me to better know their needs.

QUALITATIVE INTERVIEWS

I have a very subtle yet intuitive approach to conducting user interviews using as much open ended questions as possible to ensure maximum effect.

TOOLS I KNOW

Paper and Pencil

**Adobe XD**

InVision

FIgma

**Miro**

HTML

CSS

MY PROJECTS / CASE STUDIES

Use this space to summarize the 2–3 case studies you will include in your portfolio. Choose one of layouts provided or make your own.

V3: MY WORK

SecretSauce

CSV Redesign

This app was a moderated social platform where users can have a safe space to connect with people who suffer from social anxiety and have a hard time socialising.

This website was aimed to redesign the website of an organisation whose cause was charitable
